

KEN BEDPAN WASHER DISINFECTOR 733

# Intelligent Disinfection

- CLEAN, LEAN & GREEN

- ✓ Icons on display
- ✓ Total disinfecting system
- ✓ Easy to service access
- ✓ Complies with 15883

BWD 733 has been developed for small clinics, hospital and isolation wards, and with its compact design it has a large capacity with a small footprint.

The BWD 733 is easy to operate by touch panel with icons showing all relevant information of the program needed by the operators.

The free standing model that is the perfect choice for a busy ward or the optional versions that can process urine bags or suction bags.

The different bedpan holders are suitable for all types of bedpan. The capacity of BWD 733 is one bedpan and two urinal bottles per cycle. Most holders will be able to hold various commodes and urine measuring glasses.

A special utensils basket is available for washing kidney bowls, wash bassins and other small items.

All data from the BWD 733 are fully exchangeable with common computer systems.
