

10Q3

Racks and Shelves

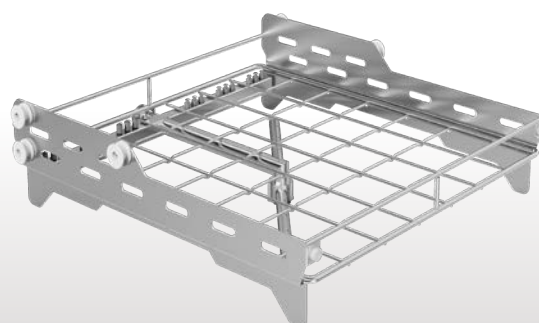

A critical component in achieving a high hygiene level is the use of racks and shelves to optimize the cleaning process. They are crafted in stainless steel.

Different racks and shelves are available in various designs to meet a wide range of needs. Equipped with 8 wheels, it ensures smooth, silent, and safe transportation in and out of the washing chamber.

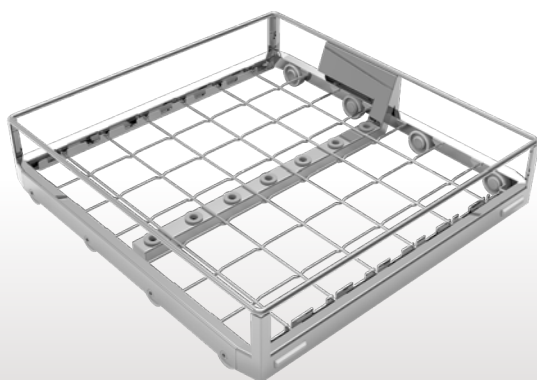

UPPER LEVEL SHELF

Upper level shelf for distributors. For connecting up to 7 distributors. Usable height on injectors: 125 mm. ref. 2938114

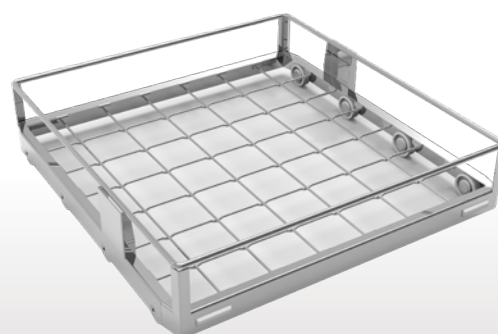

UPPER LEVEL BASIC SHELF

For optimal loading and cleaning of up to 2 DIN baskets. Incl. spray arm. Loading height: 160 mm. ref. 2938012

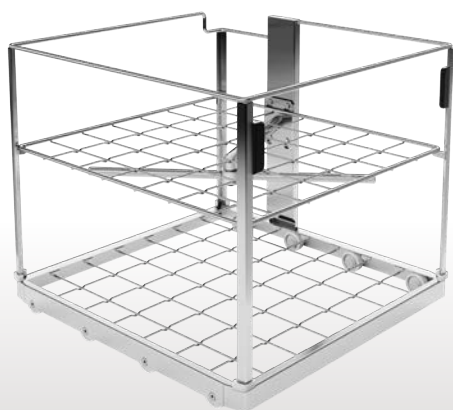

LOWER LEVEL SHELF

Lower level shelf for distributors. Fits under upper level shelf. ref. 2938113

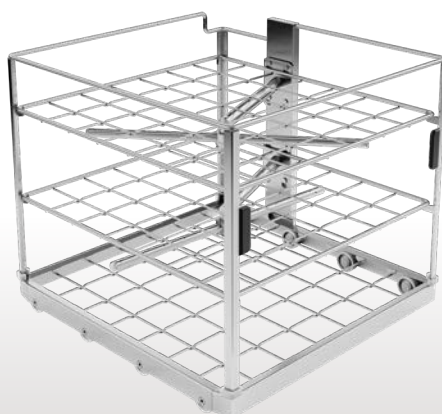

LOWER LEVEL BASIC SHELF

For optimal loading and cleaning of up to 2 DIN baskets. Fits under upper shelf. Loading height without upper shelf: 455 mm. With upper shelf: 235 mm. With raised shelf: 350 mm. ref. 2938093

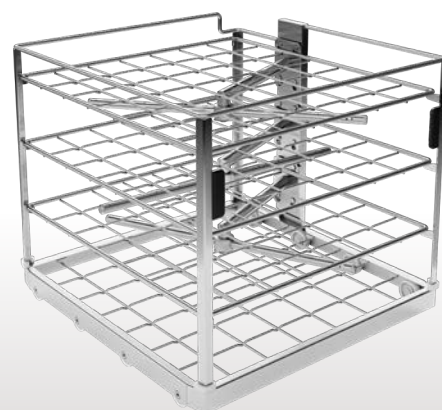

FLEXIBLE RACK 2 LEVELS

For optimal loading and cleaning of up to 4 DIN baskets. Incl. 1 removable spray arm and shelf. Loading height in both levels: 180 mm. Center level removed: 420 mm. ref. 2938090

FLEXIBLE RACK 3 LEVELS

For optimal loading and cleaning of up to 6 DIN baskets. Incl. 2 removable spray arms and shelves. Loading heights in all levels: 100 mm. ref. 2938069

FLEXIBLE RACK 4 LEVELS

For optimal loading and cleaning of up to 8 DIN baskets. Incl. 3 removable spray arms and shelves. Loading heights in all levels: 60 mm. ref. 2938074

IQ3

Cabinets

The IQ3 can be conveniently placed on top of a cabinet to ensure an ergonomic working height, enhancing user comfort and efficiency.

The cabinets are available with either one or two doors. They offer storage space for chemicals, keeping your work area organized and easily accessible.

Additionally, the cabinets can be purchased as an optional add-on.

CABINET WITHOUT DOOR

Stainless steel cabinet without door. 60 cm.
ref. 2930809

CABINET WITH DOOR

Stainless steel cabinet with door. 60 cm.
ref. 2930810

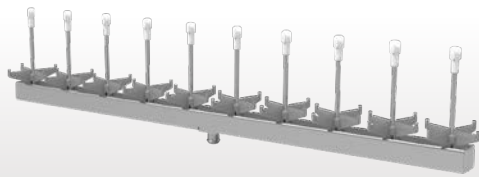

10Q3

Distributors

The distributors are engineered for maximum flexibility, allowing easy adaptation to a wide range of goods. They are available in two configurations: fixed spikes or threaded connections for holders.

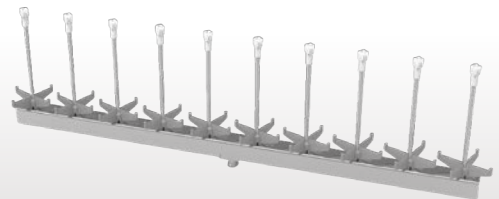

You can transform your interior rack design by changing or adding just one or two distributors. This process is simple and requires no heavy lifting.

Storage space can be saved due to the flexible design. With one rack or shelf and a few additional distributors, you can accommodate a wide variety of equipment.

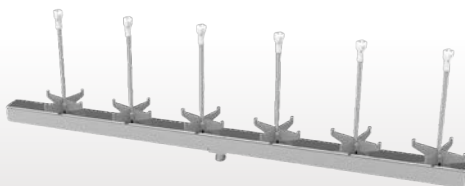

DISTRIBUTOR WITH INJECTORS

Distributor unit with 10 x 60 mm. fixed injectors.
ref. 2938121

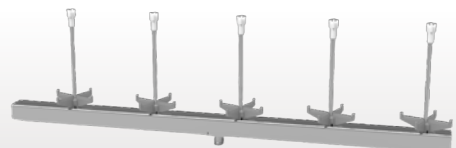

DISTRIBUTOR WITH INJECTORS

Distributor unit with 10 x 95 mm. fixed injectors.
ref. 2938122

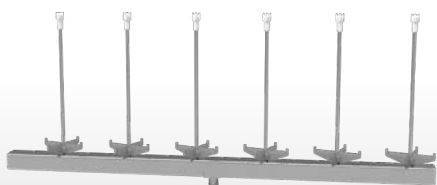

DISTRIBUTOR WITH INJECTORS

Distributor unit with 6 x 95 mm. fixed injectors.
ref. 2938802

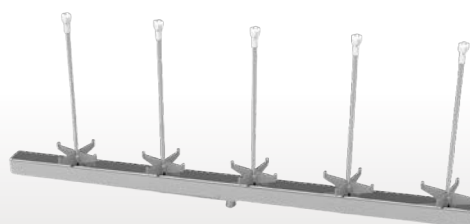

DISTRIBUTOR WITH INJECTORS

Distributor unit with 5 x 95 mm. fixed injectors.
ref. 2938124

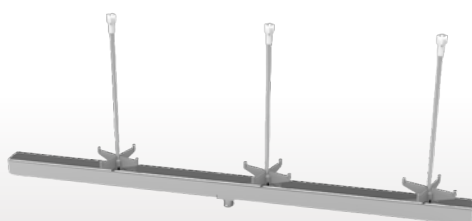

DISTRIBUTOR WITH INJECTORS

Distributor unit with 6 x 150 mm. fixed injectors.
ref. 2938803

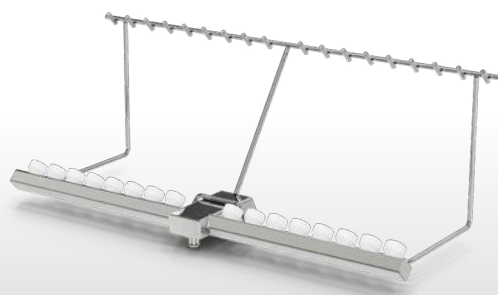

DISTRIBUTOR WITH INJECTORS

Distributor unit with 5 x 150 mm. fixed injectors.
ref. 2938126

DISTRIBUTOR WITH INJECTORS

Distributor unit with 3 x 150 mm. fixed injectors.
ref. 2938127

DISTRIBUTOR FOR PIPETTES

Distributor unit with for 16 pipettes.
Pipette length: 220 - 580 mm.
ref. 2938191

DISTRIBUTOR UNIT

Distributor unit with space for 3 x 165 mm. M14 x 1.
ref. 2938128

DISTRIBUTOR UNIT

Distributor unit with space for 3 x 151 mm. M14 x 1.
ref. 2938129

10Q3

Spikes and Supports

Various supports and spikes are available to securely hold most types of glassware, ensuring stability and protecting the accessories.

The spikes and supports can be screwed onto distributors with threaded connections, allowing you to customize the accessories to meet your washing needs.

This flexibility allows users to quickly and easily modify their washing setup to handle different types of glassware and equipment.

JET SPIKE

Jet spike Ø5 x 200 mm with nozzle.
ref. 8300105

JET SPIKE

Jet spike Ø6 x 270 mm with nozzle.
ref. 8300106

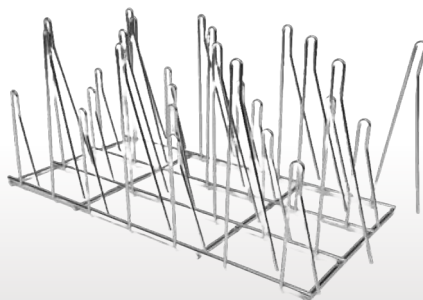

JET SPIKE

Jet spike Ø8 x 360 mm with nozzle.
ref. 8300107

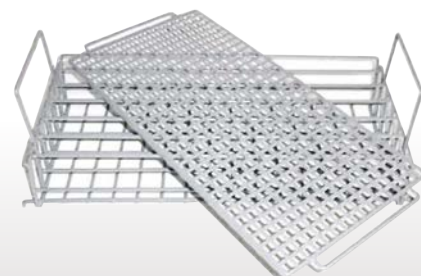

SUPPORT

Support for glassware. Free position on shelves. 430 x 150 x 160 mm. 22 positions. ref. 8300173

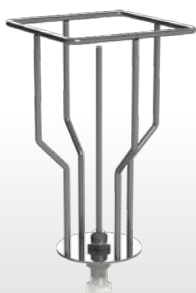

SUPPORT

Support for glassware. Free position on shelves. 400 x 200 x 180 mm. 28 positions. ref. 8300175

JET SPIKE

Support for petri dishes. Free position on shelves. 450 x 210 x 140 mm. 2 petri dish Ø100 x 20 mm. ref. 8300186

SUPPORT, 500 ML

Support for Erlenmeyer flasks, 500 ml,
or laboratory bottles, 500 - 1000 ml.
ref. 8300305

SUPPORT, 5000-10000 ML

Support for flasks, 5000 - 10000 ml,
245 x 245 mm. Height: 299 mm.
Spike: 300 mm. ref. 8300310

SUPPORT, 500-1000 ML

Support for flasks, 500 - 1000 ml,
150 x 150 mm. Height: 302 mm.
Spike: 300 mm. ref. 8300312

SUPPORT, 2000-5000 ML

Support for flasks, 2000 - 5000 ml,
170 x 170 mm. Height: 264 mm.
Spike: 246 mm. ref. 8300313

SUPPORT, 2000 ML

Support for flasks, 2000 ml,
2 liter Bluecap bottles.
ref. 2902789

SUPPORT,

Support for measuring glass,
complete. 1000:10-2000:50.
ref. 2902850

IQ SUPPORT

IQ Support for thin and delicate tubes.
ref. 2908310

10Q3

Nozzles, Rosettes and Clips

A wide range of nozzles, rosettes and clips are available for different washing needs.

Different types of nozzles are offered to achieve optimal water dispersion. Additionally, rosettes can be placed on the spikes for protection of the glass, and clips can be used to keep the glass securely in position.

The wide selection of accessories makes it easy to change your washing setup, if there is a change in the required washing needs.

NOZZLE TIP

Nozzle tip for jet spike Ø4.
ref. 2900897

NOZZLE TIP

Nozzle tip for jet spike Ø5.
ref. 8300109

NOZZLE TIP

Nozzle tip for jet spike Ø6.
ref. 8300110

NOZZLE TIP

Nozzle tip for jet spike Ø8.
ref. 8300111

NOZZLE

Silicone nozzle for glass openings from Ø10
Ø5,9 x 1,5 mm. ref. 7609410

NOZZLE FOR PIPETTES

Nozzle for pipettes.
ref. 2900913

Rosette for Ø4 spikes. Diameter 510 mm.
ref. 7610775

Rosette for Ø4 and Ø5 spikes.
ref. 8300329

Rosette for Ø6 and Ø8 spikes.
ref. 8300330

Support for Ø4 spike. H: 70 mm.
B: 28 mm. ref. 7610778

Support for spikes Ø4.
ref. 7608938

Clips for Ø5 mm jet spikes. 80 mm long.
ref. 2540921

Clips for Ø8 mm jet spikes. 55 mm long.
ref. 2540922

Clips for Ø6 mm jet spikes. 124 mm long.
ref. 2540923

Clips Ø5 mm Jet Spikes - Lower part only.
ref. 2541078

Clip holder for spikes
ref. 8300188
